

Departure from Fadalto (TV) Location Laghi Blu, May 19, 2019 at 09:00. We skirt the right bank of the Dead Lake up to cross Borgo Piccin; from there we take a short path in the direction of Borgo Simoi and then continue on a slight slope along the Troi dei Pali to reach Croda Rossa.

We climb through the meadows of Croda Rossa up to the trail called CAI 985, which will take us to the first refreshment point in Borgo Collon (Km 6.5); you go up just a little beyond the last houses (CAI 985), up to the junction marked for the path / mule track towards Col Formigher. We continue slightly uphill to Casera Schiocchet (ruins), where we find the fork for the GR 26 (km8) that will lead us on the path called "croda del nonno".

We climb by crossing the forest firebreaker, we continue always in moderate ascent to the path of the "croda del nonno" up to "Casere Olanda" (graft with the path CAI 985). We follow the forest cart (CAI 985) to Forcella Zoppei (12 km, water point): from here alternate the dirt road and the path TV1, sharing the route with the athletes of the GR 98 and the GR 49 up to the Refuge Col Visentin (Km 14, solid-liquid refreshment). Then a short section on the TV1 ridge up to a well-marked crossroads: slightly downhill we take the dirt road that will take us to the Capanna Bristot (Km 16,6).

We continue following the signs GR 26 up to the Brigata Alpina Cadore refuge (Km 17.3); from here, along path TV1, a long descent awaits us to share with the GR98 and GR 49 up to Borgo Caloniche (Km 22) where the last refreshment will be set up.

Still 4 km all flat (CAI path 1045) divide us from the arrival: we coast the Dead Lake and we reach the finish line of the Fadalto Loc. Laghi Blu (Km26).
