

Departure from Fadalto (TV) Location Laghi Blu, 19 May 2019 at 07:00. It starts along the right bank of the Dead Lake until it crosses Borgo Piccin; from there we take a short path in the direction of Borgo Simoi and then continue on a slight slope along the Troi dei Pali to reach Croda Rossa.

We climb through the meadows of Croda Rossa up to the trail called CAI 985, which take us to the first refreshment point in Borgo Collon (Km 6.5); we go up just a little beyond the last houses (CAI 985), up to the junction marked for the path / mule track towards Col Formigher. We continue slightly uphill to Casera Schiocchet (ruins), where we find the fork for the GR 48 well marked. We descend (crossing the paved road Fais Visentin) to Borgo Olivi (aqueduct fountain on the left, Km 9), then take a mule track to the right and we go down for the marked path up to loc. Previdal (Km 10.6). Climb to the right along the path of via Vizza, turn right and go up along a mule track and through casere and chestnut groves you will reach the trail called CAI 1033 at an altitude of 1000 (14 km). We abandon the 1033 to climb along the ridge through the pastures of Malga Cor until you reach the slopes of the Col delle Poiatte at an altitude of 1300 (15 km).

Turn left along the trail TV 1 up to the rest of Pian de le Femene (Km 17,5): from here on the track is in common at the GR98. We continue to the right through the dirt road of the canal de Limana towards Malga Montegal (Km 20,6) and then head to Malga Canal del Gatt (aqueduct fountains with wash-houses, water point that we strongly recommend, Km 21.4). After Malga Van, turn right onto the forest road towards Val del Cor -Sorgente Saonara: a nice path leads straight to Casera Sonego (25 km, water point).

Take the TV path 1 in the direction of Forcella Zoppei (water point, Km 28), and continue alternating the road

and path TV1 up to the Refuge Col Visentin (restaurant, Km 30.5). Continue on the ridge up to Capanna Bristot (33 Km), where we find the junction marked GR 48. Take the left and go down the path towards Malga Col Toront, then continue on the Nevegal forest road (path 5) to the junction ( trail 18).

We climb near the La Casera Restaurant (36 Km), to follow the signs for the ridge path up to Malga Faverghera (water point, 38 Km). Still a slight climb on a cemented road to the Brigata Alpina Cadore refuge, and from here on the TV1 path a long descent awaits us to share with the GR96 and the GR 26 up to Borgo Caloniche (Km 44) where the last refreshment will be set up .

Still 4 km all flat (CAI path 1045) divide us from the arrival: we coast the Dead Lake and we reach the finish line of the Fadalto Loc. Laghi Blu (Km49).
